

# BIOGENA moments - immun bites

## The snack innovation of the year

Small bites with a big effect: compact like finger food, a sensationally creamy and incomparable filling is hidden in the crunchy shell. Not only damn tasty, but also damn good for you. Why? In this little snack we hide a recipe that is worth seeing - no added sugar, no palm oil, no gluten, but the perfect dosage of valuable micronutrients.

Long story short: We pack vitamin C, our favorite "sunshine" vitamin D3 and the fatigue fighter magnesium into our heroes for the immune system and energy metabolism in a small crunchy cushion, as fluffy as a cookie. Together, they are the "three musketeers" of the body's immune defenses.

## Good to know:

We don't just want the best for you, but also for our Bites - that's why we don't send them through the deep fryer, but instead let them bake in the oven very gently until crispy ;) and that's even CO2-neutral.

- ∞ The functional snack innovation of the year.
- ∞ A real treat on the outside, a real explosion of flavor on the inside: first crunchy, then creamy.
- ∞ BIOGENA Inside & maximum added value: Vitamins C, D3 and magnesium support you and your immune system.
- ∞ Conscience-free enjoyment: 100% vegan, 100% palm oil-free, 100% gluten-free.
- ∞ NEOH Inside: zero sugar added & zero nonsense.
- ∞ More than that: good for you AND your body!
