

BIOGENA moments - kola bliss

Your Energize x Dynamize kick-ass caffeine moment

Well, hello there! Kola bliss makes tired eyes look awake! The refreshing and spicy smell reminds you of cola, but beware: With kola bliss you can expect much more than an 0815 kola lemonade! Designed as a sugar-free energy bitter Kola, kola bliss not only offers a stimulating bitter-tart taste with only 15 kcal per can, but also provides an extra portion of caffeine as well as 100% of the daily requirement of riboflavin (vitamin B2), which supports energy metabolism processes and helps to reduce tiredness and fatigue.

Kola bliss gets its extra bitter kick primarily from the quassia root, which has already made a name for itself as a bitter wood thanks to the strongly bitter-tasting ingredient quassin. The caffeine it contains, also a natural component of the kola nut and guarana extracts used, also contributes to the bitter-tart taste. And while conventional cola lemonades typically do not exceed a caffeine content of 15 mg/100 ml, our kola bliss comes up with 32 mg per 100 ml, is thus on the level of an energy drink in terms of caffeine content and can rightly call itself the strongest functional cola on the market.

Good to know:

∞ Our kick-ass energy bitter kola contains a whopping 80 mg of caffeine per can - With natural caffeinated extracts from guarana and kola nut

∞ BIOGENA Inside & maximum nutritional added value: Optimally dosed vitamin B2 faithfully supports your energy metabolism. Contains 100% of the recommended daily requirement of vitamin B2 per can thanks to the micronutrient market leader BIOGENA.

- Riboflavin (vitamin B2) supports normal energy metabolism and helps reduce fatigue and tiredness.

∞ ZERO+ by NEOH: Zero sugar - but maximum enjoyment with the sugar replacement formula ZERO+! And that with only 15 kcal per can and a lower increase in blood sugar levels.

- The consumption of foods containing erythritol, sucralose and polydextrose instead of sugar causes the blood sugar level to rise less after their consumption than when eating foods containing sugar.

∞ naturally 100% vegan
