

Basogena® 5 energetisiert

For the daily intake of valuable base compounds

The acid-base balance

A good acid-base balance is the basis for ensuring that all the processes in the body can function optimally and that performance and vitality can be preserved in the long-term. Our modern times – the changed environmental conditions, comfortable lifestyle and our unbalanced diet – tend to be acidic. A base powder containing suitable mineral compounds ensures the body is supplied with additional bases.

Biogena Basogena® 5e

Biogena Basogena® 5e contains selected base-forming mineral compounds for short-term, targeted use or as a regular supplement. Energised in a homeodynamic manufacturing process.

Possible use:

- For regular or targeted short-term intake of bases

Bioavailable micronutrients in a pure form

- Only active ingredients
- Free of additives
- Without colours, flavours or glazing agents
- Gluten-free
- Lactose-free
- Fructose-free
- Hypoallergenic
- 100 % vegan
- Quality tested
