

BromeZym® Zink 10

Immune-formula for immediate help

Micronutrients support the immune system

When the days get shorter and wind, cold and wetness are constant companions outdoors, it is especially important for our immune system to be fit and resistant. To support the protective function, the body's own defences are actively supported by various vital substances. Biogena BromeZym® Zink 10 contains organic zinc and non-acidic vitamin C in the form of the patented Ester-C®, which together contribute to the normal functioning of the immune system. In addition, BromeZym® Zink 10 contains the protein-digesting (proteolytic) enzyme bromelain, which is obtained from pineapple.

BromeZym® Zink 10:

- Contains the enzyme bromelain derived from pineapple in an appropriate dose
- Contains vitamin C in the form of the patented Ester-C®
- Vitamin C and zinc contribute to normal functioning of the immune system
- Vitamin C contributes to normal energy generation and normal psychological function as well as helps reduce tiredness and fatigue

Possible uses:

- For nutritional support of the normal function of the immune system, e.g. in the cold and damp season
- For targeted intake in times of increased physical and mental stress
- For the targeted intake of bromelain
- For the supplementary intake of non-acidic vitamin C (Ester-C®)

Bioavailable micronutrients in a pure form

- According to the pure substance principle
- Without colours or flavours
- Gluten-free
- Lactose-free
- Hypoallergenic
- Vegetable capsule shell
- 100 % vegan
- Quality tested
