

# ColonBalance® Sticks

## Neutral-tasting powder with a high content of soluble plant dietary fibres

### Biogena ColonBalance® – food for the intestinal bacteria

Dietary fibres are an important component of our diet. Some of these soluble plant dietary fibres serve as food for the intestinal bacteria, as they can be converted to short-chain fatty acids, lactate and other valuable metabolites. Biogena ColonBalance® contains selected soluble dietary fibre types (acacia fibre, citrus pectin and resistant dextrin), which the intestinal bacteria in the final section of the intestine use as food. This can increase the daily consumption of dietary fibre, the food for the microorganisms in the intestine – all's well if the gut is well!

### ColonBalance®:

- Is a neutral-tasting powder with a high content of selected soluble dietary fibre types, which the intestinal bacteria use as a source of food
- Contains the raw material with the registered trade name Fibregum™ made from acacia fibre, citrus pectin and resistant dextrin

### Possible uses:

- For the targeted intake of various types of dietary fibre and to increase the general dietary fibre intake

### Bioavailable nutrients in pure form

- According to the pure substance principle
- Free from additives
- Without colorants, flavorings and coatings
- Gluten Free
- Lactose free
- 100% vegan
- Hypoallergenic
- Tested quality
