

Coenzyme Q10 active Gold 60 mg

The Q10 active formula

Coenzyme Q10 – the vital substance

Coenzyme Q10 is a natural substance from our food, which can also be produced in the body itself. Particularly high concentrations of coenzyme Q10 are found in organs requiring a lot of energy, for example the heart, brain, kidneys, liver and musculature.

Ubiquinol: The ready-to-go coenzyme Q10

Coenzyme Q10 exists in two forms: ubiquinone and ubiquinol. Coenzyme Q10 in the form of ubiquinone first has to be converted to the active form ubiquinol in the body. The ubiquinol (KANEKA Ubiquinol™) in Biogena Coenzym Q10 active Gold is completely and immediately available to the body – independent of the cellular conversion steps.

Clear – absolute – pure: The NutriGellets® technology

With the high-quality NutriGellets® technology, the active ingredients are uniformly stored in small fish gelatin pearls. The gelatin matrix protects the sensitive ubiquinol so that there is no need for colourings, preservatives or stabilisers.

Possible use:

- For the intake of bioidentical coenzyme Q10 in the immediately available ubiquinol form

Bioavailable micronutrients in a pure form

- According to the pure substance principle
- Free of additives
- Without colourings, flavourings or glazing agents
- Gluten-free
- Fructose free
- Lactose-free
- Quality tested

INGREDIENTS per daily dose	1 Capsule	% NRV*
Ubiquinol (KANEKA UBIQUINOL™)	60 mg	-
