

Cordyceps & C

To support the immune system

Biogena Cordyceps & C: To support the immune system

Biogena Cordyceps & C contains vitamin C for the nutritional support of the immune system and pure Cordyceps powder, which is characterized by a variety of ingredients whose importance is only gradually being scientifically established. In addition, vitamin C helps to maintain vitality in stressful situations by helping to reduce fatigue and tiredness and supporting energy metabolism.

Cordyceps: An extraordinary medicinal mushroom

Cordyceps sinensis is a Chinese medicinal mushroom, the unusual lifecycle of which distinguishes it from other mushrooms. While the mushroom survives winter underground as the parasite of a caterpillar, in spring it grows on the soil surface forming finger-like shapes. As the Chinese caterpillar mushroom is a protected species, it is cultivated for use as a food supplement. The fermentation and standardisation process allows the highest quality for targeted supply in the form of medicinal mushroom capsules.

Physiological importance of the vital substances contained:

- Cordyceps powder of highest purity from the fully ripened fruit body
- Vitamin C supports the normal functioning of the immune system
- The water-soluble vitamin helps maintain vitality in stressful situations by reducing fatigue and tiredness

Possible uses:

- For long-term support of the body's own immune defences
- To maintain vitality under stressful situations

Bioavailable micronutrients in a pure form

- Pure substance principle
- Without colours, flavours or glazing agents
- Gluten-free
- Lactose-free
- Hypoallergenic
- Vegetable capsule shell
- 100 % vegan
- Quality tested
