

# DoloZym® forte Gold

## DoloZym® forte - Proteolytic enzymes for systemic absorption

Enzymes control and accelerate countless metabolic processes in the body. They contribute above all to the fact that substances are cleaved and thus better processed, and are thus constantly occupied with the degradation of large molecules. Bromelain, papain, trypsin and chymotrypsin have long been the focus of science as representatives of this important molecule class. These four enzymes contained in Biogena DoloZym® forte have proteolytic properties, i.e. they break down proteins. Bromelain and papain are obtained exclusively from vegetable sources - while papain is contained in particularly high concentrations in the skin of the green papaya, bromelain is mainly found in pineapples.

Biogena DoloZym® forte contains not only vegetable bromelain and papain but also the important enzymes trypsin and chymotrypsin. In addition, natural bioflavonoids such as quercetin and citrus bioflavonoids as well as grape extract supplement the sophisticated enzyme complex - the combination of special micronutrients contained in Biogena DoloZym® forte thus represents a sensible supplement to the daily diet.

## DoloZym® forte

- Contains the proteolytic enzymes trypsin and chymotrypsin
- With the purely vegetable, protein-splitting enzymes bromelain and papain
- With valuable citrus bioflavonoids, quercetin and grape extract

## Possible applications:

- For the increased supply of the proteolytic enzymes bromelain, papain, trypsin and chymotrypsin.
- For the supplementary supply of natural bioflavonoids

## Bioavailable micronutrients in a pure form

- According to the pure substance principle
- No colouring agents, artificial flavourings or covers
- Gluten-free
- Vegetable capsule shell
- Quality tested

INGREDIENTS per daily dose	3 capsules	% NRV*
Bromelain	300 mg	-
Papain	300 mg	-
Trypsin-chymotrypsin	150 mg	-
Chymotrypsin	5 mg	-
Quercetin	300 mg	-
Citrus bioflavonoids	180 mg	-
Grape extract	30 mg	-

\* % OF NUTRIENT REFERENCE VALUES IN ACCORDANCE WITH EU REGULATION 1169/2011.

## INGREDIENTS

Capsule shell (hydroxypropyl methyl cellulose, gelling agent: gellan gum), bulking agent: powdered cellulose, quercetin, bioflavonoid-containing citrus extract, bromelain, papain (contains **sulfites**), trypsin-chymotrypsin, grape extract, chymotrypsin (contains **milk**).

## RECOMMENDED DOSAGE

1 x 3 capsules daily on an empty stomach (30–60 minutes before a meal) or at the earliest 2 hours after a meal with plenty of liquid.

## NOTE

Food supplement in accordance with EU Directive 2002/46/EC

## IMPORTANT NOTICE

Enzymes have a slightly blood-thinning effect. Therefore, they should be discontinued at least one day before a planned operation. As soon as haemostasis is assured after the operation, the patient can start taking the enzymes again. Consult your doctor.

## ADDITIONAL NOTE

### Enzyme activity:

Bromelain: 6 FIP-E/mg

Papain: 60000 USP-E/mg

Trypsin/Chymotrypsin: 1400 USP-E/mg (= Trypsin 2400 USP-E/mg + Chymotrypsin 400 USP-E/mg)

Chymotrypsin: 1000 USP-E/mg

## PACKAGE SIZE AND CONTENT

90 capsules (1 month supply), 59 g

Food supplement: The recommended daily dosage should not be exceeded. No substitute for a balanced and varied diet and a healthy lifestyle. Store in a dark, dry place at room temperature. Protect from heat. Keep out of reach of children. Suitable for diabetics. The information provided here is not a statement on healing or a recommendation to self-medicate. DRcaps® Plus is a trademark of Lonza or its affiliates, registered in the USA. Subject to print or typographical errors. Version 12.05.2023.
