

Marines Omega-3 liquid

To support cognitive performance and heart function

Omega-3 fatty acids in liquid form

In order to expand the range of our omega-3 products, we now offer our high-quality omega-3 fatty acids as a liquid - because diversity is very important at Biogena. The advantage is obvious: People who are reluctant to take capsules can easily and efficiently ensure their daily intake of essential omega-3 fatty acids with the Marines Omega-3 liquid. In addition, the product has a pleasant taste and is particularly suitable for people who do not like the taste of fish. Valuable omega-3 fatty acids are mainly obtained by consuming fish and fish products. For people who rarely or never eat fish, Marines Omega-3 liquid is ideal for increasing daily omega-3 intake.

Marines Omega-3 liquid:

- High-quality omega-3 fatty acids in liquid form
- EPA and DHA contribute to normal cardiac function*.
- DHA contributes to the maintenance of normal brain and visual function**.

* The positive effect occurs with a daily intake of 250 mg EPA and DHA.

** The positive effect occurs with a daily intake of 250 mg DHA.
