

# NitroStress® Formula

I

## NitroStress® Formula I - Clever combination to support energy supply

While the terms "oxidative stress" and "free radicals" are now commonly known and antioxidants enjoy great popularity, nitrosative stress is still quite unknown. Nitrosative stress is another form of oxidative stress. While with conventional oxidative stress the free radicals are oxygen-based, free nitric oxide forms the basis of nitrosative stress. Nitric oxide is an endogenous substance with important biological functions in the human body. As is so often the case, it is only excessive formation that causes the system to lose its equilibrium and can impede energy production in the mitochondria. Nitrosative stress has a particularly strong influence on cells with high energy requirements such as nerve cells, immune cells, liver cells or muscle cells.

NitroStress® Formula I is a special preparation with the standardised and clinically tested special extract Curcumin C3 Complex® and with black pepper extract (BioPerine®) as well as taurine. In addition, it contains five vitamins of the B-complex - with a particularly high vitamin B12 content. The important vitamins niacin, vitamin B6, pantothenic acid and vitamin B12 support the normal energy metabolism. The combination of NitroStress® Formula I with NitroStress® Formula II is recommended for optimal supply.

## NitroStress® Formula I

- Niacin, vitamin B6, pantothenic acid and vitamin B12 contribute to a normal energy metabolism.
- With high-quality extracts from curcuma (Curcumin C3 Complex®) and black pepper (BioPerine®)

### Possible applications:

- To support normal energy metabolism
- For the targeted supply of high-quality plant extracts from Curcuma longa and black pepper

### Bioavailable micronutrients in a pure form

- According to the pure substance principle
- Free of additives
- Without colours, flavours or glazing agents
- Gluten-free
- Lactose-free
- 100 % vegan
- Hypoallergenic
- Quality tested

\* % OF NUTRIENT REFERENCE VALUES IN ACCORDANCE WITH EU REGULATION 1169/2011.

### INGREDIENTS

Taurine, Curcuma longa extract, hydroxypropyl methyl cellulose (capsule shell), nicotinamide, hydroxocobalamin, pyridoxine hydrochloride, calcium-D-pantothenate, black pepper extract, folic acid.

### RECOMMENDED DOSAGE

2 capsules daily taken with plenty of liquid.

### NOTE

Food supplement in accordance with EU Directive 2002/46/EC

### IMPORTANT NOTICE

Suitable for adults only.

### ADDITIONAL NOTE

If the biliary tracts are blocked (e.g. by gallstones), food supplements containing curcuma should not be consumed or should only be taken after consultation with your doctor.

### PACKAGE SIZE AND CONTENT

60 capsules (1 month supply), 33 g

Food supplement: The recommended daily dosage should not be exceeded. No substitute for a balanced and varied diet and a healthy lifestyle. Store in a dark, dry place at room temperature. Protect from heat. Keep out of reach of children. Suitable for diabetics. The information provided here is not a statement on healing or a recommendation to self-medicate. Subject to print or typographical errors. Version 07.02.2019.
