

Nutrifem Agnubalance®

On the hormonal balance of women

Hormones shape female phases of life

Women are different. From childhood to old age, female sex hormones shape a woman's physical development and well-being. In many phases of life, the power of the sex hormones is noticeable. Be it puberty, which is reflected in the skin of many girls, during the menstrual cycle with its physical and emotional state or during the tangible hormonal upheaval during the menopause: In every stage of a woman's life, hormonal balance has a strong influence on her health and well-being.

Nutrifem Agnubalance® is a herbal combination with extracts of yam, fennel, hops, soy and chaste tree (*Vitex agnus-castus*) as well as vitamins B6 and E. Vitamin B6 helps regulate hormonal activity and supports the hormonal balance of women.

Possible uses:

- For nutritional support in menopausal complaints such as hot flashes, sweating or restlessness
- For the targeted supply of plant extracts of yam root, fennel, hops, soy and monk's pepper
- For hormonal balance and for the well-being of women of childbearing age

Bioavailable micronutrients in a pure form

- According to the pure substance principle
- Without colours, flavours or glazing agents
- Gluten-free
- Lactose-free
- Vegetable capsule shell
- 100 % vegan
- Quality tested
