

PhytoDoxx®

Plant-based active complex

An endogenous detoxification system

Our metabolism is the basis of all vital processes in the body. Roughly, it encompasses all bio-chemical processes that take place within the cells. Metabolism however, also includes the processing, conversion and excretion of substances that are absorbed from the environment. The body has a sophisticated enzyme system in order to be able to effectively process and excrete these substances gathered from the environment. This complex system needs a sufficient amount of specific micronutrients for a smooth process. Artichoke extract can also help the detoxification capacity of the body.

Biogena PhytoDoxx®: To support the detoxification process

PhytoDoxx® from Biogena is a plant-based food supplement to provide nutritional support for detoxification and excretion processes.

Physiological importance of selected vital substances contained:

- Artichoke supports detoxification
- Selenium contributes to the protection of cells from oxidative stress

Possible uses:

- To support the detoxification capacity, e.g. in case of exposure to environmental toxins or chronic drug intake

Bioavailable micronutrients in a pure form:

- According to the pure substance principle
- Free of additives
- Without colours, flavours or glazing agents
- Gluten-free
- Lactose-free
- Vegetable capsule shell
- 100 % vegan
- Quality tested
